

GLOBAL ONE HEALTH SCHOLARS PROGRAM

Deadline: September 15, 11:59 p.m. ET

The Global One Health Scholars Program at NC State develops **undergraduate** students into the next generation of leaders in One Health through interdisciplinary training, experiential learning, and leadership development, centered on the One Health approach, which connects human, other animal, plant, and environmental health.

ELIGIBILITY

- Must be an **undergraduate** student enrolled in the **Global One Health Minor**. Interested students may enroll in the minor at any point up through the application deadline.

THE PROGRAM

- **Interactive Seminars:** Participate in seminars with faculty, field experts, and graduate students. Explore diverse topics through engaging discussions as part of a collaborative cohort.
- **Experiential Learning:** Engage in hands-on projects and leadership activities that enhance your practical skills and interdisciplinary understanding.
- **Study Abroad:** Attend a transformative course in the Czech Republic during Summer II 2025. Address global challenges like the health impacts of climate change, emerging infectious diseases, and antimicrobial resistance. Scholars will receive funding to cover the costs.

**Become a leader in One Health
and make a difference in global
health challenges!**
