

## Czech Republic: Global One Health Applications

Summer 2025

Immerse yourself in Prague through the lens of One Health, an approach that underscores the interconnectedness of human, animal, and environmental health. This program applies the One Health framework to address real-world global health challenges through hands-on learning and interdisciplinary engagement. Explore issues such as emerging infectious diseases, antimicrobial resistance, and the health impacts of climate change. The program also offers cultural and historical exploration of the Czech Republic.
